**Research**

- Modeling Resource-Constrained Project Scheduling Problem and its Solution by Genetic Algorithm-Chunlai Chai | 87 |
- Research on the E-commerce of Agricultural Products in Sichuan Province-Mu Jiong, Lijia Xu, Qiang Huang, Chaolin Li | 97 |
- Study on Fuzzy Evaluation of Credit Risk of Corporate Bond-Ouyang Jiazhong, Li Min | 102 |
- Exception Detection for Web Service Composition Using Improved Bayesian Network-Yao Chen, Shi Ying, Liqiang Zhang, Juebo Wu | 108 |
- High Points Recognition Method of Scraped Surface Based on Background Subtraction-Xiaopeng Li, Leilei Sun, Yonghong Liu | 115 |
- Structure Optimization of Ladle Bottom Based on Finite Element Method-Gongfa Li, Zheng Li, Jianyi Kong, Guozhang Jiang, Liangxi Xie | 120 |
- Information Sharing in Supply Chain: A Literature Review-YANG Zhonghua, ZHANG Ling | 125 |
- Production Procedure Optimization in Iron and Steel Enterprise-Guozhang Jiang, Enyuan He, Gongfa Li, Jianyi Kong, Liangxi Xie | 131 |
- Vehicle Routing Optimization Problem with Time-windows and its Solution by Genetic Algorithm-Tinggui Chen, Guanglan Zhou | 136 |
- A Hybrid Method to Deformation Force of High-speed Cold Roll-beating Forming-Yang Ming-shun, Li Yan, Yuan Qi-long | 146 |
- Regularized Orthogonal Local Fisher Discriminant Analysis-Shuhua Xu | 154 |
- Algorithm Research for Supply Chain Demand Prediction - Taking Fresh Agricultural Product Enterprises as Example-He Wang | 160 |
- Optimization and Application of Support Vector Machine Based on SVM Algorithm Parameters-YAN Hui-feng, WANG Wei-feng, LIU Jie | 165 |

**Book Review**

- 170 |

**Conference Notification**

- The Fifth International Conference on the Applications of Digital Information and Web Technologies (ICADIWT 2013)
- The Eighth International Conference on Digital Information Management (ICDIM 2013)
Editorial

In this issue we present 13 papers on applications of varied themes and methods in intelligent technology. These papers analyze the possible applications on the selected domains. These papers contain discussions on themes, methods, techniques and experiments supported with data and analysis.

We find the papers as more innovative and represent the newer application research in intelligence. Hope the readers can benefit by looking at the research. We also expect that readers and researchers can use the content of the published papers.
